

"English Week" starts this year as well. This year's "English Week" is a week from November 16th to 20th. In "English Week", The official language of Kumadai Fuchu is English. While attending Kumadai Fuchu you can feel like studying abroad. Morning meetings and Return meetings are conducted in English. We use a lot of English in classes other than English. In math, we change 「この角のことを対頂角と言います」 to "We call "この角"対頂角". In Physical education class, we change 「位置について」 to "On your mark". In Music, we change 「歌を歌いましょう」 to "Let's sing a song". This year unfortunately we cannot interact with international students. But please take this week to look at the international community.

My determination for Ekiden race

2年4組 Ono

This year many school events have been canceled due to the effects of coronavirus. Even in such a case, recently we held a sports day. Of course, we couldn't do usual programs but I was very impressed with new creative ones. We have only a few chances to make memories with 3rd grade students. So we want to create a new Ekiden race like a sports day to deepen the bonds with everyone. Ekiden is a sport where each runner runs with all their might and hands over their sash to the next runner. It is like a relay race, but we must run longer distance. We 2nd grade students have already started working as leaders of this school. 3rd grade students gave us a lot of suggestions and led us. I want 2nd graders and 1st graders to accept 3rd graders thoughts and do their best. Thanks for holding the race during the Corona Disaster. Let's all work together as a team.

Ekiden tournament that connects feeling

1年3組 Ikeda

I still can't forget Kumadaifuchu's Ekiden Race. I saw it when I was in elementary school. I went to the school because I had club activities on a chilling autumn day. On the day, the teachers and seniors were preparing early in the morning at that time. In the actual performance, I saw my seniors running powerfully many times. I thought they were a hassle at first. But then I saw my senior's eyes. Their eyes were enthusiastic, absolutely concentrated on the sash. I still remember their eyes.

I wanted to be like them, and I enrolled in this school. However, Culture Day, one of the three major school events, has disappeared, and Sports Day has changed from the usual, because of the influence of corona. So I worried about that. Also I was worried about that it would cause my seniors trouble with their athletic meet

However, seniors in the third grade worked hard to make this a success and made a practice plan during the test. When I saw this effort, I thought, "We must support our seniors." I think Ekiden race is ideal for the current student organization's goal of "connecting." I also think that seniors connect traditions and juniors connect the thoughts of the seniors. I would like to connect "the future of Fuzoku."
